Chief, Civil Engr. Section

Dear Sir:

The City of Pacific Grove is preparing to construct the six foot chain link fence around the Lighthouse and cottages at Pt. Pinos Light Station.

According to the plans sent from your office, there are to be gates on the north, west and south sides of this fence.

I am asking permission to eliminate the gate on the south side, as there appears to be no benefit from having one in this location. I have discussed this with the Lighthouse keeper, and he can see no possible use for a gate on this side.

The plans do not indicate the size of the gate; but I assume a three-foot wide gate would be satisfactory on the other two sides.

Sincerely yours,

MURL M. FRITSCHLE
City Manager
