Mr. Murl Fritschle
City Manager
City Hall
Pacific Grove, California

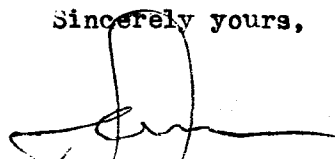

Dear Murl:

Following is the list of surplus Coast Guard equipment which we may be able to procure for the Lighthouse upon application to the District Commander:

1. 375 mm lens
2. BN 840 Flasher motor
3. 1297 lamp changer by Wallace & Tierrman
4. Monomoy surf boat (designed for horse-drawn trailer)
5. 36-motor life boat (less engine)
6. Any surveyed buoy systems preferably similar to those in operation in Monterey Bay

It's my understanding that all of the above are available either in San Francisco at Yerba Buena Island or Los Angeles.

Sincerely yours,

Vernal L. Yadon
Curator
