Lt. Armand Chapeau
United States Coast Guard
100 Lighthouse Ave.
Monterey, CA 93940

Dear Lt. Chapeau:

I understand that a revised lease for the Lighthouse property is being prepared and will be executed upon the Coast Guard's automation of the navigation light.

When the Lighthouse building is turned over to the City, it will be necessary for us to make some changes, both for operation and security purposes. As part of this planning, we are wondering about the possibility of the present fire extinguishers and fire protection devices remaining on the property. If possible, we would appreciate the Coast Guard leaving these fixtures on the premises for our use.

If this presents any problems, I would appreciate hearing from you.

Sincerely yours,

GARY W. BALES
City Manager
