Dear Nancy:

Thanks very much for sending the National Register of Historic Places Nomination forms for the Point Pinos Lighthouse and also for the booklet How to Complete National Register Forms which I understood from your note I may keep. The latter will save much time in preparation.

I have briefly looked over the copy of additional information needed and feel that this can fairly readily be completed with data in hand, perhaps if we supply a rather beefed up package of what the Park Service people need, we will get the registry.

Thanks for your help and interest.

Sincerely,

Vernal L. Yadon
Director
