

MEMORANDUM

March 17, 1995

TO: ASSISTANT MUSEUM CURATOR

FROM: CITY MANAGER

SUBJECT: SHUTTERS ON POINT PINOS LIGHTHOUSE

The attached photograph of an unidentified lighthouse (I believe it is the Point Pinos facility) was given to me by Flo Schaefer. She pointed out the shutters on the building and the fact they are not present on the current structure. She wondered if the existence of the shutters on the original building could be authenticated and, if so, would it be appropriate to have them reinstalled.

I told her I'd check with you to see if that kind of information is readily available or easily accessed. Could you help me out on this? Thank you very much.

MICHAEL W. HUSE
CITY MANAGER
