Alexandria Apprientice-Yaus  
Realty Specialist  
Maintenance & Logistics Command Pacific (sr)  
Building 54-D, Coast Guard Island  
Alameda, CA 94501-5100

Dear Ms. Apprientice-Yaus:

Enclosed is the completed Environmental/NEPA Analysis Checklist. I have also enclosed a copy of the asbestos tile analysis and cost estimate for removal, along with the project proposal.

I spoke with Mr. Clarence Ceasar of the Office of Historic Preservation (916) 653-8902. He stated that if the request for asbestos removal is granted the project would come under Title 106 of the National Historic Preservation Act and they would like to know if it would have an adverse effect on the structure.

The removal of all asbestos tile in the Point Pinos Lighthouse will allow us to develop the temporary exhibit in the upstairs bedroom and restore the original fur floor downstairs.

We hope the Coast Guard agrees that this would be a worthwhile project to complete.

Sincerely,

Paul M. Finnegan  
Assistant Curator
