

THE QUESTERS

September 2004

To Whom It May Concern:

The National Questers Adobe Chapter 375, a non-profit organization, has been involved with the Point Pinos Lighthouse since 1994. Our focus has been the refurbishing of the interior of the Lighthouse to reflect the years 1893 to 1914. This late Victorian style reflects the years when lighthouse keeper Emily Fish was in residence.

Our skills and expertise have been used to locate antiques and skilled craftsmen and make appropriate recommendations on antiques and period furnishings. We have volunteered our services and under certain circumstances have helped fund the purchase of items. Our relationship with the City of Pacific Grove, Museum Department, has been that of a consultant.

Audrey M. Morse
President

Shirley Lindholm
Project Chairperson

ACKNOWLEDGMENTS

The Pacific Grove Museum of Natural History wishes to acknowledge and thank the following people and organizations that contributed to the restoration of the parlor and upstairs bedroom of the Point Pinos Lighthouse.

Members of the Adobe Chapter of the Monterey Peninsula California State Questers
