SUGGESTED PRIMER FOR VIVID ANTIFOULING PAINT

Pettit Protect® White 4100/4101 is a heavy duty, two-component, epoxy coating in a white color for use where maximum resistance to fresh or salt water is required. It will not bleed into other primers, enamels or antifouling paints. Specifically designed for use below white and light colored Vivid® bottom paints. Its use reduces the number of finish coats needed to achieve full color.
