Subject: Point Pinos Lighthouse

Hi Ray,

I would like to introduce you to Jamie Rees (included on this email) who is the technical representative for CIM in this region.

Jamie has graciously agreed to provide the CIM membrane for no cost to the project and would like to provide his expertise in concrete preparation and membrane installation to ensure the products are installed correctly and perform as anticipated. I think it would be beneficial to arrange a site visit prior to installation so that Jamie can review the project, meet the team and get an idea of the project dynamics.

When would be a mutually convenient day we can arrange a site visit?

Best,

Mark Dietrich, AIA

Dear Mr. Tarmina,

Thanks for reaching out to me regarding this restoration and repair pro
posal to remove and restore the iron plates that surround the lante
proceed. One request, please provide before and after photos (with so
overall description of what was done to the lantern room. If you have :

Thanks again,

V/r,

Arlyn Danielson
